Organization and Functions, Office of Personnel

- 1. The proposed changes in the organization and administration of the Career Service Program, which have been sent to you by the Chairman of the CIA Career Service Board, make necessary a slight change in Regulation which describes the organization and functions of the Office of Personnel. I have discussed this matter with the Deputy Director and with the CIA Career Service Board. It is the consensus that the following change which I propose to you is appropriate.
- 2. It is recommended that paragraph 2f(7) of Regulation be changed
 - From: "(7) Staff assistance to Agency officials in the administration of the Agency Career Service Program, including secretariat and other administrative services for the CIA Career Service Board."
 - To: "(7) Administering and monitoring the Agency Career Service Program. Developing and recommending the establishment of policies and procedures for the management of Career Boards and, through review of their activities, periodically advising the Director as to the effectiveness and accomplishments of the program."

\ Harrison G. Reynolds

MEMORANDUM FOR: Assistant Director for Personnel

SUBJECT:

Administration of Travel and Transportation

REFERENCE:

- A. Memorandum to Chief, Regulations Control Staff from Deputy Assistant Director for Personnel, subject: "Transfer of Authority for Arranging the Transportstion of Personnel to the Office of Personnel," dated 11 February 1954
- B. Comments submitted to Chie, Regulations Control Staff by Deputy Ass' about lirector for Personnel on Draft Regulation Transportation Policy.
- l. In Reference A the DAD/P calls attention to the need for revising Regulations to more correctly reflect the responsibilities, authorities and functions of the Logistics Office/DDA and the Office of Personnel with respect to Agency travel and transportation. With this suggestion I am in complete agreement. I have received the impression, however, from the views expressed in both Reference A and E that some confusion or misunderstanding exists concerning the proper method of delineating between the travel and transportation responsibilities and authorities of the Logistics Office, and the functional exercise of some of these responsibilities by the Central Processing Branch of the Personnel Office.
- 2. It is my view that the DD/A has primary responsibility and authority for the general administration and supervision of all Agency travel and transportation, including primary responsibility for developing and recommending all travel and transportation policies, and for ensuring that approved policies are properly administered. In der to accomplish this, adequate regulations and procedures must be developed; appropriate delegations of authority and assignments of responsibilities must be made; and essential supporting services must be furnished.
- 3. With reference to the above, I view the Central Processing Branch of the Personnel Office as a composite service facility operating under the general supervision of the AD/P. As such it performs personnel, comptroller, medical and logistics functions at a central point for reasons of convenience and efficiency in the processing of personnel going to and returning from overseas duty. Accordingly, to the extent that the Overseas Processing Branch exercises travel authority in performing travel functions and services, it must do so under the technical supervision and direction of the Logistics Office, and under authorities delegated to it by the Chief of Logistics or by Agency regulation.

50X1

50X1

I suggest	erly reflect these relationships in Regulations the following revisions in these regulations:
stitute	Delete the body of paragraph 13.e. and sub- the following:
	"Assume responsibility for the general administration and supervision of the travel of CIA personnel and the transportation of CIA property."
b. substit	Delete the body of paragraph 2.f. 11) and tute the following:
,	support of all personnel performing official travel. In the performance of this function and in the exercise of responsibilities and authorities otherwise assigned to and vested in other Agency components and staffs, the central processing service shall be under the technical direction and supervision of such components or staffs."
egulations such	In the performance of this function and in the exercise of responsibilities and authorities otherwise assigned to and vested in other Agency components and staffs, the central processing service shall be under the technical direction and supervision of such components or staffs." You have other suggestions or views, it is suggested that be revised accordingly and that subsidiary
egulations such	In the performance of this function and in the exercise of responsibilities and authorities otherwise assigned to and vested in other Agency components and staffs, the central processing service shall be under the technical direction and supervision of such components or staffs." You have other suggestions or views, it is suggested that be revised accordingly and that subsidiary as Regulation be similarly made to reflect these

: Transfer of Authority for Arranging the Transportation of Personnel to the Office of Personnel

1. Paragraph 13, Regulation Organization and Functions, contains a statement that the Chief of Logistics shall: "e. Arrange for the transportation of personnel...."

2. As you are aware, the responsibility for arranging transportation of personnel was transferred from the Transportation Division, logistics Office, to the Office of Personnel in September 1953. It is considered that the functional statements for the Logistics Office and the Office of Personnel should be amended on the first occasion for reliesuing the pages concerned.

3. Paragraph 2f(11) of Regulation Organization and Functions, Office of Personnel, should be emended to read: "Operation of a central processing service, including arrangement of transportation, for personnel performing official travel." Paragraph 13e of Regulation should be arranged to read: "Arrange for the transportation of equipment, property, and supplies; and provide headquarters noter pool service."
